

## FACING THE "PERCEIVED" ENEMY AND CREATING ANEW.

This is the time many beings volunteered to re-incarnate on Earth... a time pregnant with potential for a major evolutionary shift in humanity and all life forms! Though an exciting ride, it is not without big bumps, resistance, fears and catastrophes (seen from the human perspective). It is fitting that regardless of belief, myth or actual, we have recently celebrated a rising from the dead, a resurrection, an ascension - a glorious new beginning.

Are we witnessing a dismantling and breakdown of systems, institutions, our ingrained, unconscious and often destructive ways? We are witnessing the more dense/dark energies pitting against the higher vibration/light energies. As both the natural environment and humanity take a deep breath it is hoped that many can move past the fear of a virus, anger at the disruption and bewilderment at what is happening all around us and observe the changes in both the inner and outer environment, without our unconscious abuse, and move inward to the expansive "bigger picture". With deep respect, many have lost/given their Earthly lives for this possibility to present itself.

For the last 16 years it has been my privilege to bring forth NEW sacred geometry called "Geometric Technologies for the Next Octave of Love, Next Octave of Human". Recently a friend asked me which of these geometries would be best to use for something radical like honoring, forgiving, loving. etc CoVid19.

This was an opportunity to offer an energetic way to embrace the perceived enemy and recognize that it was also a creation of The Oneness i.e. no separation, and doing what a virus does...

BEing. It does not need our forgiveness for living. It is humans that are crippled by carrying blame, anger, pain etc that are being given this opportunity. Forgiveness is part of our expanding love. Could I do that? Could I put an image of this virus into one of the geometries? As a peoples, could we perhaps find the gifts, embrace this virus and actually thank it for grabbing us and turning our world upside down?

As I remembered the promise of these geometries: "LOVE beyond our ability to cognate" and removing the illusionary veils of separation between ourselves and Source/God/Spirit Beyond Naming, I was reminded that facing and embracing what was fearful opened the possibility of seeing a bigger and bigger picture of what was happening. Could humanity do this? I felt that I had already been doing this although I became aware of an unrecognized fear deep in my body. My body? or the mass collective consciousness? It did not matter. The action being called for was the same. Embrace and forgive the "enemy" for its perceived destruction that had been before our eyes, though we were blind. A bold action in the face of the pain, suffering and death of many. Yet we must, if we walk our conscious evolutionary talk.

The geometric system that immediately came to the forefront was the **Golden Infinity** where I saw an image of the CoVid19 reside. It was in the fullest part of the geometry. That geometry then completed when the Golden Infinity moved into the Infinite Open Heart becoming **Infinite Love**, the 1st of the family of 7 geometric technologies of love.

Following my intuition I created images of of both the CoVid19 in one version of the geometry and another version with both

healthy human red and white blood cells. The intent? to represent and activate a changing tide from fear of an "enemy" to one of creating a healthy environment, both inside and outside ourselves. An environment, that in its health, is not conducive to supporting dis-ease. An environment where we are no longer "sick".

I invite you to hold these images in your mind and in your hearts, helping to consciously create a new Earth, a higher evolved human, instead of the 6th mass extinction, and push the edges of our love envelope toward the next octave of love.

Calling the WayShowers... Let's do what we volunteered to do before we arrived on Earth! This is the time we have awaited, the time is NOW! WE are the ones we have been waiting for!!

I love you! I love Earth! We came for this! Thank you for sharing this adventure.

I offer the following for consideration:
